FIREPLACE
COLLECTION

Challenging the industry with avant-garde designs since 1982, Jean Claude Bordelet's creations have established their place amongst artisan engineers in the fireplace manufacturing world by proving to be a non-conformist player.

From a simple stroke of a pen, original designs, and fluidity of shapes, JC Bordelet creates unspoken innovations while maintaining and mastering innovative metal techniques. These exquisite designs have led JC Bordelet to receive numerous honours and awards including the famous Janus Industry Award in 2002.

Designed and handcrafted from the South of France, these grand designs are hand shaped and spun from 4mm thick steel. Handmade in limited quantities, these artisan engineered designs are highly sought after amongst designers and architects alike. With an array of colours and finishes to choose from, the unimaginable becomes imaginable in the heart of your home.

"There is no sacrifice for the perfection of shapes with our fireplaces"

Jean Claude Bordelet

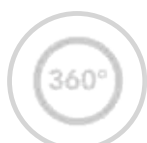

JC BORDELET TATIANA 997

From wherever your French handmade JC Borgelet Tatiana 997 suspended fireplace is residing, it will cause a stir of desire that others will crave with its 180° viewing area and 360° pivot rotation option. Handmade in South of France, the JC Borgelet Tatiana 997 suspended wood fire is made from hand shaped and spun steel, making this artisan engineered fireplace highly sought after amongst designers and architects alike. Any suspended wood fireplace will create drama and ambiance, but the JC Borgelet Tatiana 997 has an ambitious *je ne sais quoi* (quality that cannot be described) that you too can attain.

JC BORDELET LINEA 914

Starting from an idea, a stroke of a pen, the design of the JC Bordelet Linea 914 was born. The slender and smooth body of the JC Bordelet Linea 914 fireplace will make a grand statement in any living space. This centre-piece has been hand shaped and spun in the South of France, meeting the needs of those seeking to make a fresh, contemporary impression. The 360° view combined with it's tapered shape creates a truly magnificent sight and an eye catching addition to any room. Stepping away from traditional and minilistic styles, the JC Bordelet Linea 914 has been designed to be easily distinguished from anything that's been designed before.

JC BORDELET EVA 992

When award winning design is combined with the mastering of innovative hand crafted techniques, it results in the introduction of the JC Bordelet Eva 992 to the range. The suspended hood and open fireplace with safety glass comes through years of artisan engineering and a dedicated pursuit for fireplace excellence. The largest in the range, the stunning JC Bordelet Eva 992 is designed to captivate and excite any audience, with its playful 360° viewing area and high quality finishing. The sheer size of the JC Bordelet Eva 992 is a grand statement piece in itself, however the opportunity to customise the finish will also make for a unique statement piece in any living space or commercial application.

Innovative design requires breaking traditional conventions and bold leaps from social norms.

The end result? A breath taking JC Borgelet sculpture in the heart of your home.

A non-conformist player in the field of designers. A darer of colour in a black and white world
